

## ABOUT THE STATE

HAPPENINGS OF INTEREST FROM DIFFERENT SECTIONS

S. W. Drake suffered a severe injury Jan. 23, by falling down stairs at his home in Wheelock and striking on a stick of wood, which drove his arm from the shoulder joint down between the muscles under the arm.

Nathaniel C. Peterson, University of Vermont, has taken a position with the Vermont Marble company of Proctor at Tokean, Alaska. Mr. Peterson left Burlington Thursday and will sail February 25 from Seattle, Wash.

Plans are being made for the removal and restoring as near as possible to its original lines of the Constitution house in Windsor. The new proposed site of the structure is on North Main street, Windsor, and its removal will begin at an early date.

Harold Sullivan, a Morrisville boy, aged about 12 years, was arrested Friday, charged with taking \$30 from the coat pocket of his teacher, Miss Ruth Gordon. The boy confessed, returning all but \$7 which he had used. He was placed in charge of the probation officer.

K. E. Mosher, a Brattleboro liverman, came near losing a pair of horses on a recent night. A man, who gave his name as Pratt, hired the team to go to Halifax, saying he would return next morning. Instead of returning, he went to Greenfield, Mass., where he tried at several places to sell the horses, which led Chief of Police Manning of Greenfield to use the telephone. Mr. Mosher immediately recognized the Greenfield chief of police, with an auto, soon overtook Pratt and took him into custody.

J. W. Hooper of Fairhaven is in the Rutland hospital in a critical condition as the result of injuries received when he was struck by flying stones from a blast while working at the slate mills of Durick, Keenan & Co., situated about one mile from Poulton. The man has a broken arm, a broken jaw, lacerated hands and face, and probable internal injuries, with very little hope of recovery. Mr. Hooper, who has been employed by the slate company for about a year, was working in the mill connected with the quarry at the time the blast was set off. The blast was not properly protected and the stones came through the shop roof, striking Mr. Hooper. He is about 52 years old and has a wife and five children, all of whom live in Fair Haven.

## Bellows Falls Woman Aged 97.

Mrs. Sibel P. H. Guild, the oldest woman in Bellows Falls, and one of the oldest in Windham county, observed the 97th anniversary of her birth Sunday, Feb. 15 in the home of her nephew, Harley J. Hutton, in Bellows Falls. She is bright and active, despite her advanced age, and except for a slight deafness retains all her faculties.

Mrs. Guild was born in Unity, N. H., February 15, 1817, the oldest of seven children of Lemuel and Sibel (Palmer) Hutton. She attended the schools of her native town and when she was 16 years of age went to Chester academy. After leaving the academy she taught school in Langdon, Charlestown and Acworth, N. H., and her weekly pay for the first term was \$31.3 cents a week. She "boarded round" with the townspeople and did not have to pay board. After her first term her pay was gradually advanced to \$2 a week, with board. She stopped teaching in order to learn the tailor's trade with Frank Petres, a former well-known business man of Alstead. After learning the trade she went to Pennsylvania and continued in it with her brother, Joel. She remained there a year and a half, and then returned to New Hampshire. In 1841 she was married to Joseph Prouty of Unity. They lived in Langdon a short time and then moved to Boston, where Mr. Prouty was engaged in the trucking business. Five years later they returned to Langdon. They had one child, which died when it was a year and a half old.

Following Mr. Prouty's death she was married to Rufus Guild of Bellows Falls, in 1867, and they lived in Bellows Falls, Alstead and Langdon until his death in 1867. After her husband's death Mrs. Guild returned to the tailor's trade and continued in it at Alstead until eight years ago, when she went to Bellows Falls to make her home with her nephew. She is a member of the Universalist church of Alstead. Mrs. Guild is interested in current affairs and keeps in touch with news by reading the newspapers every day. In warm weather she takes a walk each day and thoroughly enjoys automobile riding. One day last summer she rode 140 miles in an automobile and felt no ill effects.

## HOW TO SAVE YOUR EYES

Try This Prescription Free

Do you eyes give you trouble? Do you already wear eyeglasses or spectacles? Thousands of people wear these "windows" who might easily dispense with them. You may be one of these, and it is your duty to save your eyes before it is too late. The eyes are neglected more than any other organ of the entire body. After you finish your day's work, you sit down and rest your muscles, but how about your eyes? Do you rest them? You know you do not. You read or do something else that keeps your eyes busy; you work your eyes until you go to bed. That is why so many have strained eyes and finally other eye troubles that threaten partial or total blindness. Eyeglasses are merely crutches; they never cure. This free prescription which has benefited the eyes of so many may work equal wonders for you. Use it a short time. Would you like your eye troubles to disappear as if by magic? Try this prescription: Go to the nearest well-stocked drug store and get a bottle of Optima tablets; fill a two-ounce bottle with water, drop in one tablet and allow it to thoroughly dissolve. With the liquid bathe the eyes two to four times daily. Just note how quickly your eyes clear up and how soon the inflammation will disappear. Don't be afraid to use it; it is absolutely harmless. Many who are now blind might have saved their eyes had they started to care for them in time. This is a simple treatment, but marvelously effective in multitudes of cases. Now that you have been warned don't delay a day, but do what you can to save your eyes, and you are likely to thank us as long as you live for publishing this prescription.

**OF GREAT USE IN BREAKING UP COLDS**

Kellogg's Tasteless Castor Oil Is a Thing Long Desired

Everyone knows the value of castor oil in breaking up fall and winter colds, but most people have found it too hard to take.

Kellogg's Tasteless Castor Oil does away with this only objection. It is pure, simple castor oil without taste or odor. Nothing is added; nothing good taken out.

In making castor oil tasteless, Spencer Kellogg & Sons of Buffalo have discovered a secret that had evaded chemists for 3,000 years.

Kellogg's Tasteless Castor Oil works better than the old, evil-tasting, evil-smelling kind. It operates pleasantly, without griping, and does not upset the stomach. Children take it easily.

Do not confuse Kellogg's Tasteless Castor Oil with prepared, mixed or flavored castor oils. It is the only true, pure, tasteless kind. Sold in all drug stores, not in bulk, but in 25c and 50c sizes. The public is protected by the trade mark—a green castor leaf, bearing the signature—Kellogg's.

Made only by Spencer Kellogg & Sons, Inc., Buffalo, N. Y., refiners of vegetable oils.—Advt.

## BERLIN

Mr. and Mrs. Arthur Brown visited in Brookfield and Randolph the past week.

Mr. and Mrs. Leon Stewart attended Pomona grange at Randolph Center last Wednesday.

A number of young people gathered at the home of Wilbur F. Brown on Friday evening to remind him of his birthday. A birthday cake with 33 candles told the story. Cake and coffee were served during the evening. "Hearts" and other games and music made the evening pass quickly, the party leaving for home at an early hour, wishing Mr. Brown many returns of the day.

The ladies of the Lend-a-Hand society gave Miss Lillian Lounsbury a kitchen shaver at the home of Mrs. Will Turner Wednesday afternoon. Miss Lounsbury received several useful articles and although taken completely by surprise, responded very nicely, thinking the ladies for their thoughtfulness and kindness. Miss Lounsbury's marriage to George Upton Selina occurs in the early spring.

## BETHEL

Dynamiting Ice in River to Get Water for Pumping Station Tank.

Chief Engineer E. C. Blaisdell of the fire department learned Saturday that the river was frozen solid at the point which supplies the tank at the pumping station, and all day Sunday and Monday he had men working to clear a channel for the water. Heavy charges of dynamite were used yesterday, one of the explosions breaking a window in the school building. The tank is full of water, but in case of fire this would soon be exhausted. If necessary blasting was to be resumed this morning.

Of the three rural mail carriers, J. H. Beckwith, was able to cover only five miles of his route yesterday, J. F. Pease, 12 miles and O. N. Barrows 15 miles. Road rollers were busy on every route but their work was slower than usual because of the great depth of the snow, averaging 24 inches.

Mrs. Sarah Jane Bowen, who is spending the winter in Athol, Mass., with her son, C. L. Morse, was 90 years of age Feb. 11. She is a native and life-long resident of Bethel, latterly spending the winters with her son.

Mrs. C. J. Fluke of Hancock is a guest of her sister, Mrs. E. H. Perry.

The local churches will observe "Go-to-church" Sunday March 1. Committees in each church will co-operate in the general movement and everybody is urged to aid in making the observance a success. The ministers' association met at the Hascom house Monday and arranged for a systematic canvass of the village.

Harley H. Shepard is moving from the Hill cottage on South Main street to the concrete house on Pleasant street.

Mrs. D. M. Miller, who for six years has conducted the Woodbury Granite company's boardinghouse here, will leave town April 1, returning finally to her old home in Vernal Haven, Me. First she will attend her son, Byron's, graduation at a medical college in Baltimore, and then she will visit a daughter in Colorado. She has been a remarkably successful manager of a somewhat difficult business, and has been well liked by all.

The steam pipes were frozen up yesterday at the cutting plant of the Woodbury Granite company, and there was nothing doing all day. The quarry was so completely snowed under that nothing could be done there except shovel snow.

Conservative thermometers indicated a temperature of 29 below yesterday morning about the same as the coldest mornings last week.

Mrs. Robert Middleton returned yesterday from a two weeks' visit to her daughter in Barre.
